MAKE RESISTANCE VISIBLE

BIKE AGAINST THE WAR ON AFGHANISTAN

As the U.S. government wages war on an entire population abroad, we call for an escalation of resistance, against U.S. imperialism, here at home. Now is not the time to practice defeatism and retreat in the face of overwhelming and misguided "patriotism." We must make our opposition to this war loud and clear.

To show our opposition to the war anti-capitalists across the country are organizing critical mass bike rides and creative protests on Friday the 7th.

TAKE TO THE STREETS! SHOW YOUR OPPOSITION!
